

July 16, 2020

Dear PCS Families,

We continue to diligently prepare for the 2020-2021 school year, and we are pleased to share our progress on our plan to move forward, evolve learning options, and return to school with a focus on health and safety.

Our plan provides important information about our revised school year calendar, student learning options, and many aspects related to health, safety, and school operations. We ask that you review the information we've prepared in detail so that you can make educational decisions that are best for your family.

As mentioned in the email to parents last week, we are asking that you select a learning option for your student(s) by Monday, July 20. If you are selecting the Remote or Blended learning option, you are required to complete a short online application. There is no need to complete the application if you are choosing the Traditional learning option. Families who do not complete the application for Remote or Blended learning will automatically be opted-in to the Traditional learning option. If you are choosing the Traditional learning option, we ask that you complete a short survey to assist in our planning efforts.

You will find links to the application and survey in the plan document and on the district website at PelhamCitySchools.org.

We appreciate your support, patience, and flexibility as we “Press On” and implement plans for our path forward.
